

CRYSTALCAM

IMAGING INC.

The Crystal Cam® Digital Video Recorder (DVR) is a rugged, industrial quality video processing device. The DVR allows you to record video, images and audio; watch live feeds; and play back recordings while in the field. It uses standard protocols and is compatible with most conventional video equipment. With Crystal Cam's® DVR, you can perform and produce a record of real-time inspection, stored on a convenient USB flash drive (included). It includes the cables and processing software to get you started immediately.
